NOTE TO : Ben Evans

The attached is a memorandum required by DOD to permit continued assignment of military officers to meet anticipated Agency and ICS requirements. The memorandum identified by Tab B was based on Agency requirements prior to the new ICS military look.

The current military detailees to ICS have been utilizing head room previously approved for other Agency requirements. This new request is to establish a head space requirement on DOD to accommodate ICS and would then "free up" the other Agency head room now encumbered by detailees to ICS. Please note this document alone does not cause a cost charge for the Agency, only when an officer is actually assigned do we incur such obligation; nor does the approval of this request negate our Agency head room responsibilities. As you and I have discussed earlier, it may well be that ICS will not be permitted to bring aboard any increase in personnel, however, this memorandum would permit them the flexibility to substitute military types for some of their civilian types. As of this time the initial authorization for the Agency is "chock-a-block" and this approval is required to permit bring aboard three other military already identified.
